

Virtual Trade Management Program & Project Based Consulting

Import/Export Compliance—Customs—Export Controls

Powering Global Trade Success

Your challenge

Companies engaging in global trade face a maze of complex trade and border security regulations. These must be carefully navigated to maintain compliance and pursue the benefits of cost-savings opportunities.

Many exporters are not aware of their responsibilities and/or mistakenly believe their compliance requirements are already met. Non-compliance with trade regulations causes companies to incur severe fines/penalties as well as legal cost to defend such actions. Outsource Trade Group can help you avoid such penalties, mitigate your risk and cut cost. We specialize in providing comprehensive trade services to all size businesses with a special focus on export controls for the military, aerospace and defense industries.

About Us

Outsource Trade Group has offices in Jacksonville, FL and Paris, France. This allows us to provide our services globally. Our experienced staff of trade experts is equipped with the tools to address all your trade compliance needs.

Import/Export Compliance—Customs—Export Controls

What is Virtual Trade Management?

Virtual Trade Management (VTM) is a unique, innovative and cost effective approach to trade compliance. Outsource Trade Group provides full-service, day-to-day operational support and management for our client's trade compliance needs by navigating companies through the maze of trade regulations and exporting in a manner that is in compliance with international trade law. We essentially act as your off-site trade compliance department by remotely managing the client's trade compliance at a fraction of the cost of in-house personnel and/or other trade-consulting firms. This allows our clients to focus their resources and talents on expanding their business. OTG consistently maintains communication with our clients through a variety of mediums such as onsite visits, emails, and a shared intranet database populated with our client's specific import/export compliance information. The shared intranet allows our clients to check on the status of a particular project/request and constantly stay informed.

- Advising clients on various import/export regulations
- Answering trade related questions from the company, employees and their customers
- Resolving customs delays
- Audits and Assessments of current import/export compliance procedures and processes
- Harmonized Tariff Schedule (HTS) Classification

- Exploration of automated import and export solutions
- Duty-minimization planning, such as free trade programs, duty drawbacks, and preferential trade agreements

Project Based Consulting

Outsource Trade Group provides project based consulting. This includes but is not limited to:

- Jump Starting export compliance programs, processes and procedures
- Expert advisement on U.S./EU export controls
- Apply for export licenses on the client's behalf
- Creating Agreements such as TAA, MLA, WDA required under U.S. Export Controls to share technology, manufacturing and distribution with foreigners partners
- Jurisdiction Determination for export controlled products
- Commodity Classification (ECCN/USML)
- Customs Valuation
- Application of applicable Free Trade Agreements
